

3.51 1934/35
FOREST SEED COLLECTOR-SPECIALIST IN FOREST-SEEDS

lb.

Grünwald & Co.
Import Kilnhouses Export

Wiener-Neustadt, Austria September 1934
Lingugasse 15

Gentlemen,

We have pleasure in presenting our dear friends and customers our pricelist for 1934/1935 which, for economical reasons, we have this time reproduced ourselves. We collect only seeds true to name and of high germination and our seeds enjoy a good reputation of reliability and choice quality all over the world.

The seeds offered as home-production, are carefully collected from vigorous trees, extracted under our personal control and conscientiously tested. The seeds gathered in other parts of Europe are harvested by trained collectors and those from over-sea come from the most trustworthy sources.

We take best care to serve our customers with just such seeds as are fit for the regions they are destined for.

We honestly wish to satisfy you and to merit your confidence !

GRÜN WALD & Co.
Forest Seed Collector-Kilnhouses .

Oblige us by names of friends who might wish to get our catalogue .

TERMS AND CONDITIONS.

PRICES: They are given in U.S. Gold Dollars and cents free Wiener-Neustadt.

Packing-and forwarding (shipping)-expenses are not included, they are charged separately at cost-price. Less than 500 lbs. are calculated at 100 lbs. rate, less than 25 lbs. at 1 lb. rate. Less than 1 lbs. addition of 20% . Less than 2 ozs. cannot be sold.

Prices subject to change and prior sale.

PAYMENT: 5% discount is allowed for orders accompanied with cash for the full amount. Unknown correspondents remit cash or mention references. For parties of approved credit special terms on agreement.

ORDERS: All orders are booked on the distinct understanding: "SUBJECT TO CROP OR SHORT SUPPLY BEYOND OUR CONTROL." Our acceptance is always subject to the yield of crop. Order early to avoid possible disappointment.

SHIPPING: Please give full shipping-instructions. Otherwise best judgment will be used in forwarding the goods, which travel at consignee's risk. We take no risk for damage in transit.

LIABILITY: While using every effort to supply all seeds of true stocks and high germinating faculty, we give no warranty as to quality, percentage of growth or any other matter, there being too many causes which prevent good seeds from germinating.

If the goods are not found satisfactory on arrival, our customers are requested to notify us at once, otherwise we do not hold ourselves responsible. Any errors in filling orders will be carefully corrected.

IMPORTANT NOTICE FOR U.S.A.:

The Government of the United States prescribes a special permit for importing seeds the number of which let us know to prevent delays and annoyances. For small quantities we recommend mailing in post-parcels, in which case there should be a separate permit.

If you have no permit please advise and you will get your seeds through our forwarding-agents.

HOME PRODUCTION

EVERGREEN-SEEDS

ed in our Extraction-Plants, fitted with up-to-date machinery.

(All our seeds are accompanied by inspection-certificates of the)
(Seed Experimental Station of the Austrian State .)

The seeds I offer are guaranteed true, collected from Serbian mother-trees, and their germination is 85/90%, while the seeds offered at cheap price by several other parties, are partly of inferior quality, partly not produced by the true mother-trees. A rare, strong and most resistant species of great decorative effect. According to Professor PANCIC the most beautiful of all Piceas. Accommodates itself to whatever kind of soil, thrives up to 5000 feet elevation on stony and rocky slopes, very frost-hardy.
